

Survey of support available for cancer patients managing menopausal symptoms

Do you have or have you had **breast, colorectal or gynaecological cancer** and experienced menopausal symptoms? If so, we'd like to hear your views and **experiences** on the support available to you.

The **Northern Cancer Alliance** is committed to involving patients and the public in all parts of our work; it is at the heart of what we do to improve cancer services in our region.

We would like to invite you to complete a short but important survey.

To take part: **scan the QR code, visit the web link ([click here](#)), or request a paper copy** from your health care professional.
